First timers, beginners, novices & rookies welcomed. And tournament veterans also welcomed. These "Training Tournaments" were created to help introduce "Non-Veteran" competitors to the tournament scene. The goals of these events are to encourage new participants to test their skills against other "Newbies" and experienced performers. Competitors are participating to learn & improve, not to win. This knowledge & experience, earned in a safe, challenging and non-competitive atmosphere will greatly enhance their courage and self-esteem as they make their way through the martial arts world and onto future regional & state level events. Experienced competitors are welcome to these fun events. Everyone learns, Everyone improves. All styles welcome.
